 8. The Inspection Report, including the use of signifying letter codes, is the professional opinion of the Inspector, based on the visual inspection of accessible structures, systems, and conditions. Without dismantling any part of any structure or system, and without full use of all utilities, the Inspector may, in his sole discretion, infer and extrapolate opinions which cannot be confirmed during the inspection. Such inferred and extrapolated opinions shall put the Client on notice to perform further inspection or testing as needed.
 9. The Inspection Company does not offer any warranty or insurance for the Client or any other person in connection with the Inspection Report.  12. Client understands and agrees that, to the fullest extent allowed by law, that the inspector and inspection company do not insure or warranty the inspection, and waives any claim of insurance or warranty. Payment for the inspection is made solely for the service provided by the inspector and inspection company in making a limited visual inspection of the property, without invasive investigation or destructive testing, and the production of a written inspection report which identifies the conditions actually observed by the inspector; the cost of such inspection and report would be substantially higher if any insurance or warranty were made. As consideration for the lower cost of inspection made possible by the foregoing waiver of insurance and warranty, Client agrees that the inspector's and inspection company's liability under this agreement shall be limited to two hundred percent (200%) of the inspection fee.
 13. Should any part of this Inspection Agreement be disallowed by any court or arbitrator the remainder shall be fully enforced.
